

MPO SCM

“ your trusted gateway to Asia ”

The History of the Company

MPO SCM is a member of the MPO Group, a French company founded in 1957, involved in optical discs manufacturing and Supply Chain Management services.

In 2005, MPO International and the FIEGE group (European specialist in logistics) joined hands to form FIEGE MPO, a company dedicated to support the many aspects of logistic demands of the Home Entertainment industries in Europe.

Following the successful launch of the logistic joint venture in Europe, MPO SCM (a subsidiary company of MPO ASIA) was established in Thailand in 2006 as a BOI promoted company. Its scope of activities covers all the services related to Supply Chain Management.

Its ideal location near Bangkok, the international airport and the deep seaports, has been a great advantage in providing efficient logistic services to our customers.
